

*Tell Sen. Kerry
& Sen. Brown:
HANDS OFF the
CLEAN AIR ACT*

MARCH FOR CLEAN AIR & A SAFE CLIMATE

**12 Noon: Meet in front of the Government Center Station
(On the Green Line)**

We will march to Sen. Kerry's and Sen. Brown's offices!

(We will deliver letters from 1 to 2pm)

Thursday, April 1st 2010

*We stand united to fight for the Clean Air Act so that the
Environmental Protection Agency can continue to fight climate
change, smog and asthma in our neighborhoods!*

Sponsors: *New England United For Justice (617-905-9939),
Global Warming Education Network (www.gwenet.org),
Boston Climate Action Network (857-544-6846), 1 Sky, & Greenpeace*

Fight for the Health of our Neighborhoods,
Stop Trashing the Climate, and
Stand Up for the Clean Air Act!

This Is Everyone's Problem – **Organize!**

Join us April 1, 2010 as we ask Senator Kerry and Senator Brown to uphold the Clean Air Act as they negotiate climate and energy legislation effective enough to create green jobs and to make our communities healthy and our nation secure.

The Clean Air Act has a nearly 40-year track record of cost-effectively cutting dangerous pollution, protecting the environment and Americans' health, and spurring technological innovation. The benefits of Clean Air Act outweighed the costs by as much as 22 to 1. According to EPA data, Massachusetts had 1/12th as many unhealthy air days in 2009 than we did in 1983. This means fewer asthma attacks for our family members and friends and fewer costly visits to the emergency room.

The Clean Air Act is so effective that it's earned some fierce opposition from major polluters like Big Coal. In fact, Big Coal is trying to persuade Senators that it will support energy or climate legislation if the bill guts the Clean Air Act, overturning EPA's scientific finding that global warming pollutants threaten human health and the environment.

The direct impact would be sweeping, blocking President Obama's landmark clean cars rule and all other actions to enforce the Clean Air Act to fight global warming. It would keep America dependent on oil and other dirty energy sources, costing us new clean energy jobs and improved security.

Healthy Communities is or Right — Organize!

Please tell Sen. Kerry and Sen. Brown the people of Massachusetts deserve clean air and a safe climate.

Senator Scott Brown: 617-565-3170 or 202-224-4543

Senator John Kerry: 617-565-8519 or 202-224-2742
